

CLEAN – UP IN DORINGKLOOF SPRUIT

Saturday

7th April 2018 07:30 – 08:30

PRESENT:

Friends:- Margie (Mahonie), Penny (Maluti), Chris(tine) (Sonja) & Marie (Maroela). (4)

BAGS: 1 bag Karin Street Bridge

AREA WORKED :- From Glover to N1

Mike reported the contractors had picked up 197 bags of rubbish. We could see that! The spruit was very clean between Glover and the N1.

Near the farmer's dam wall we found someone had thrown out an old carpet and some tiles. This we put into a yellow bag which we left on the Karin Street Bridge for the truck to pick up.

The Spruit is looking beautiful! The grass has mostly been cut and it is cleaner than it has been in a long time!

Thank you to Natalie and Mike for helping us by employing these contractors. One can definitely see a great improvement.

PLEASE JOIN US NEXT TIME –

The next clean-up will be Saturday 5th May 2018 at 07:30 – 09:30.

PS :- NOTE TO NATURE CONSERVATION :- There are a few alien trees (look like black wattle) up against the fence right at the bottom of the Karin Street / N1 section. I suggest we do a site inspection as to what to do.....

Regards,

Marie de la Rey
